IN RE: REVIEW OF AGGREGATE)	
MEASURABLE COST SAVINGS)	APPLICATION TO INTERVENE
DETERMINED BY DIRIGO)	OF THE MAINE STATE
HEALTH FOR THE SECOND)	CHAMBER OF COMMERCE
ASSESSMENT YEAR)	

Docket No. INS-06-900

NOW COMES the Maine State Chamber of Commerce, by and through its attorneys, pursuant to the Notice of Pending Proceeding and Hearing dated April 26, 2006 and pursuant to 5 M.R.S.A. §9054(1) and Maine Insurance Rule, Ch. 350, and requests, as a matter of right, full party intervenor status in this proceeding for the reasons set forth below.

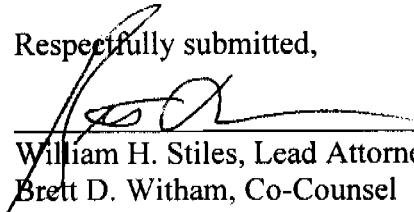

1. The Maine State Chamber of Commerce (the "Chamber") is a statewide business association representing Maine businesses, both large and small.
2. The Chamber's members include large businesses that provide group health coverage for their employees through self-funded plans. Other member employers provide health coverage through insured plans. The Chamber itself also has an insured health plan for its own employees.
3. The purpose of this proceeding is to review the aggregate measurable cost savings ("AMCS") attributable to the operation of Dirigo Health and any increased MaineCare enrollment due to an expansion in MaineCare eligibility.
4. The Dirigo Health Board of Directors (the "Board") held an adjudicatory hearing on May 8 and May 10, 2006, to determine AMCS. The Chamber intervened and was a party to the adjudicatory hearing to determine AMCS.
5. Following the adjudicatory hearing, the Board determined AMCS at a public hearing on May 12, 2006. The Board's May 12 determination was then reduced to writing and adopted by the Board on June 6, 2006. The Board's determination of AMCS is contained in a filing made with the Superintendent on June 9, 2006 (the "Dirigo filing").
6. The AMCS amount determined by the Board will, in turn, support and serve as a cap on an assessment made against health insurance carriers, employee benefit excess insurance carriers and third-party administrators in an amount not to exceed 4.0% of annual health insurance premiums and employee benefit excess insurance premiums. The assessment is called a "savings offset payment" or SOP.

7. The SOP will have tremendous impact on Maine's business community. Every employer in Maine that provides health care coverage to its employees (whether self-funded or insured) will be affected by the SOP.
8. The SOP will be paid directly by health insurance carriers, third-party administrators and employee excess benefit insurance carriers. However, it is Maine employers and their employees that will ultimately pay the savings offset payment, particularly if the AMCS under Dirigo are not accurately measured.
9. Health insurance carriers and employee excess benefit insurance carriers will have the ability to pass the SOP on to employers in their premium rates, and third-party administrators will be able to pass the assessment on to self-funded plans directly.
10. The likelihood of the SOP being passed on to employers increases if the AMCS are not accurately measured. The ability of Maine employers to offer health care coverage is already threatened by the high costs of health care and health insurance in Maine. If the AMCS under Dirigo are not accurately measured and reflected in the rates paid by Maine employers and their employees for health care and health insurance, it will serve to make health insurance even more unaffordable.
11. Due to the already high-cost of health care and the impact of cost increases on the ability of Maine employers to offer health insurance, and for the reasons set forth above, Maine employers have a direct and substantial interest in making sure that the AMCS under Dirigo Health reform initiatives are accurately measured.

For all the above reasons, the Chamber requests that its Application to Intervene as a matter of right, with full party status, individually and on behalf of its members that will or may be substantially and directly affected by the proceeding, be granted.

Dated: June 12, 2006

Respectfully submitted,

William H. Stiles, Lead Attorney
Brett D. Witham, Co-Counsel

Counsel for the Maine State Chamber
of Commerce
